Subject: September's Featured Trainings on CDC Learning Connection

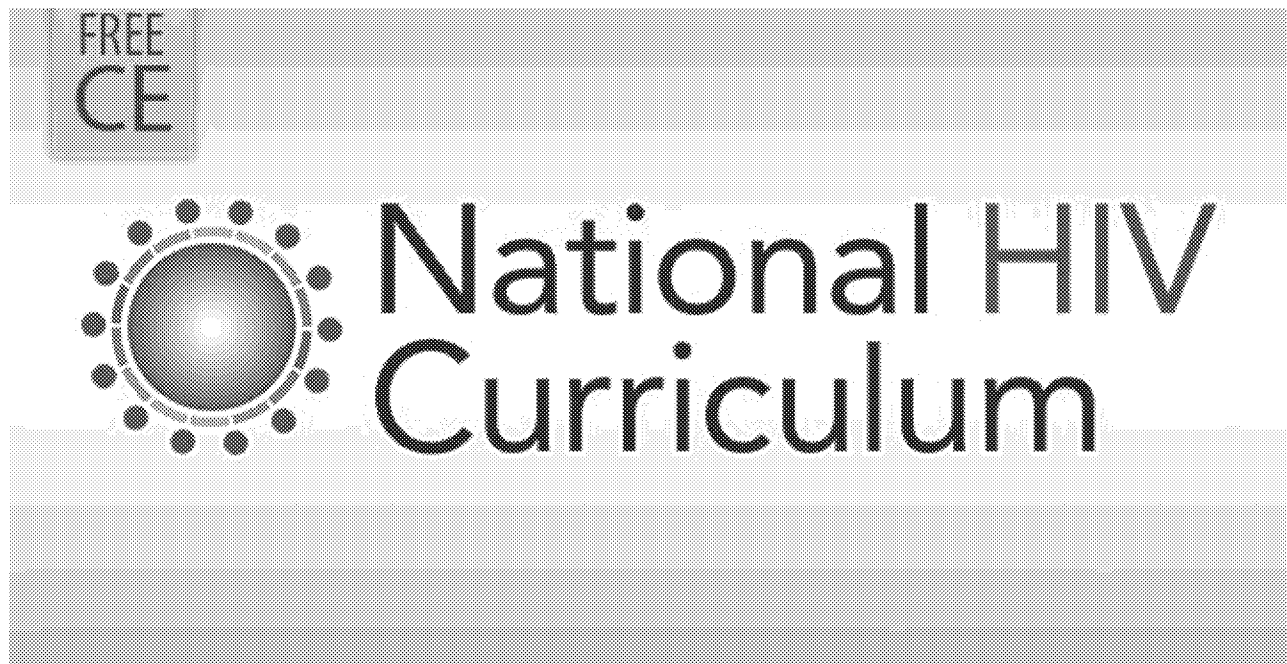

HIV, Foodborne Outbreaks, & Older Adult Falls

September 2019 Newsletter

CDC Learning Connection promotes quality online trainings from CDC, other federal agencies, and federally funded partners. Share this email with your colleagues and encourage them to sign up to receive the newsletter!

Note: You may have received this newsletter because you indicated that you wanted to learn more about CDC learning opportunities when you created an account in Training and Continuing Education Online (TCEO).

HIV

An estimated 40,000 Americans are diagnosed with HIV each year. This Sexual Health Awareness Month, learn the latest guidance on HIV prevention, screening, diagnosis, and treatment with this AIDS Education and Training Center (AETC) program. **Earn free CE.**

Take HIV training

Environmental Assessment Quick Train

Foodborne Outbreaks

September is National Food Safety Education Month. Take this training from the Colorado Integrated Food Safety Center of Excellence to learn the basics of environmental assessments during a foodborne outbreak investigation.

Take Foodborne training

STEADI

Stopping Elderly Accidents, Deaths & Injuries

Older Adult Falls

Pharmacists can help prevent older adult falls. This Falls Prevention Awareness Day (September 23), learn how pharmacists can implement fall screening, review medications, and offer patient education with this training from CDC and the American Pharmacists Association (APhA). **Earn free CE.**
